

COSTEEL PROCESSING (P) LTD.

COSTEEL has been formed by a group of IIT-Kharagpur alumni in order to commercialize various products of coloured stainless steel. Unique part of the innovation is that different colours are achieved by controlled oxidation of AISI-304, AISI-316 grades of stainless steel because of "Selective Absorption" of light at different nanometric

levels of the artificial oxide films. Another unique aspect of their creation is that Science and Technology gets combined with Art by using a masking agent.

Existing products are Souvenirs, Mementos for corporate bodies & academic institutions, self portraits, portraits of famous people and art forms such as Pata-Chita of Bengal. Stainless steel enables the art forms and other products as permanent without any deterioration.
